ShodhGanga: Repository of Indian Research in Progress

ShodhGanga: Repository of Indian Research in Progress details (Synopsis/Research Proposals for PhD programme)

The word "Shodh" originates from Sanskrit and stands for "research and discovery". "Ganga" is one of the largest rivers in the Himalayas and source of irrigation of Ganges, the holiest, longest and largest of rivers in India. The Ganga is the symbol of ever long life, fertility, ever spring, ever flowing, ever young and loved by its people.

Under the initiative call of "ShodhGanga", research scholars / research supervisors in universities are requested to deposit electronic version of approved synopsis submitted by research scholars to the universities for registering themselves for the PhD programme. The repository on one hand, would reveal the breadth and directions of research being conducted in Indian universities; on the other hand it would avoid duplication of research. Synopsis in "ShodhGanga" would later be mapped to full-text theses in "ShodhGanga". As such, once the full-text theses is submitted for a synopsis, a link to the full-text theses would be provided from ShodhGanga to "ShodhGanga".

Only Synopses or Research Proposals are to be submitted, not Fulltext Theses.....!!!

Technical Issues resolved...Have YOU NOW UPLOADED SYNOPSIS.....

Search
