e-Governance

Government Brennen College is a public funded institution which has a deep commitment to the society and is accountable to it. In order to bring accountability in administration and transparency in procedures the college has introduced e-governance in office management and administration. College admissions were conducted through a 100% transparent e governance platform. E-governance has been successfully activated in the office administration through Digital Document Filing System (DDFS), an advanced free software, making the administration system file-free. Student management including admission, fee collection, scholarships, etc. were operated through the software college mate. Employee management including salary disbursement and attendance management are operated through SPARK and AMC. The college plans to extend the use of e-governance in all areas of college management in near future.
